

## **Welcome to Our Practice!**

A great smile starts with a healthy mouth. For over 30 years we have been providing comprehensive dental care to the Merrimack Valley and have built our reputation with our caring expertise. Thank you for choosing us as your health care provider.

We want to make your experience here a positive one of good customer service and open communication with our Doctors and our entire staff. Although we are a full service practice, our best experiences with our patients stem largely from mutual understanding of the joint responsibility we all share achieving our goals of healthy teeth and gums for life.

Dental technology is constantly changing and our office is fully equipped to provide you with the most advanced dentistry. Whether you need a routine cleaning and check up, are interested or in need of restorative or cosmetic services, we can offer you the best options available, including the revolutionary Invisalign invisible braces.

If you have had a full series of dental x-rays, or a Panorex film within the last 3 years please arrange to bring the originals with you or have them sent to our office prior to your appointment. They are necessary to accurately evaluate your oral health and in determining or discussing the most appropriate treatment.

If you have dental insurance, we submit pre-treatment estimates on all elective (non-emergency) services in order to determine available benefits. Copayments as determined by your insurance carrier are paid at the time of service.

Enclosed is a registration form we will need for your initial visit. Please complete both sides and sign where indicated.

We look forward to meeting you. Should you have any questions in the meantime, please give us a call.
